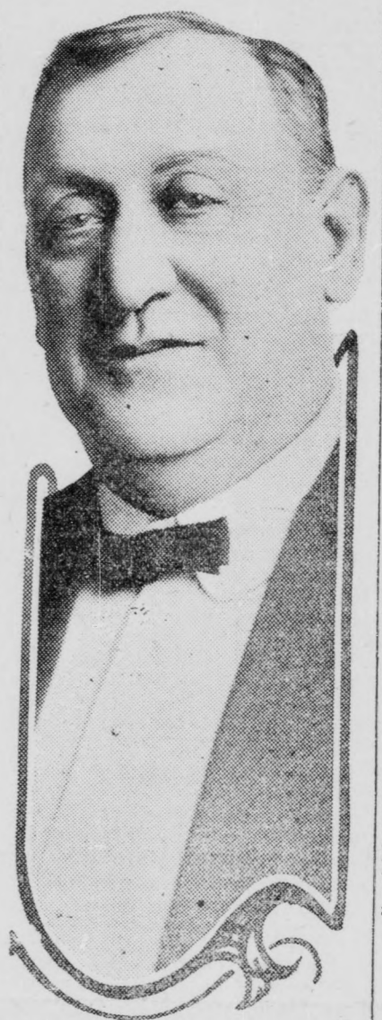
Saturday Afternoon, August 11, 1917, 4 O'clock

ALBERT D. PEARCE
Exalted Ruler



J. W. USILTON
Chairman Building Committee

One of the most significant events that has ever occurred in Glendale, will take place this afternoon at four o'clock at the site of the new Elks' building on West Colorado street, near Brand Boulevard, Glendale, when 5000 people will assemble to observe the laying of the corner stone of the $60,000 Elks' building which is now in process of construction, Chas. W. Kent & Son being the contractors.

The members of the Elks' lodge will meet at the lodge rooms in the Central building on West Broadway near Brand Boulevard and will march to the location of the new building.

Exalted Ruler A. D. Pearce will preside at the time of the exercises and he will deliver an address. The main address of the day will be delivered by a Brother Elk, Mr. Brown of Santa Monica. The laying of the corner stone will be in accordance with the ritualistic work of the lodge. Visiting Elks will be present from Los Angeles, Pasadena, and a dozen other cities in Southern California. The Glendale Elks with a membership of over 700 men are dearly loved by the Elks of neighboring cities and this is a good opportunity to honor the Glendale men.

The members of the building committee, who have worked so diligently to bring about this eventful day are J. W. Usilton, chairman, R. M. Jackson, L. L. Forrest, Peter L. Ferry, A. L. Weaver, J. W. Pearson.

Other officers, whose names have not been previously mentioned are: Bert T. Woodward, Esteemed Leading Knight; C. D. Thom, Esteemed Loyal Knight; Rodger Brown, Esteemed Lecturing Knight; Willis M. Kimball, Secretary; Herman Nelson, Treasurer; A. L. Weaver, Esquire; John Fanset, Inner Guard; J. L. Mellish, Tyler.

The citizens of Glendale are cordially invited to be present to witness the exercises. While the building is the property of the members of the Elks' Lodge, yet it is something in which every citizen of Glendale should take a deep interest.

PREDICTS INCREASE OF MALE BIRTH RATE

(Special Service to Glendale Evening News)

LOS ANGELES, August 11—.That boys will predominate in the birth records for 1918 is the prediction of Dr. Q. J. Rowley of Los Angeles. With America in the war, nature will see to it that warriors will be in the majority in next year's baby crop, he thinks.

"The terrible sacrifices of male life in war deeply impresses the life springs of a nation," he declares. "Nature strives to keep the balance between male and female. It is a matter of history that many more male babies than female were born during and following the great wars of history. The thing that has happened before we may expect to happen again. Already the male babies are coming faster than the female in Los Angeles. In my own practice in recent months I have noticed that the proportion is 70 per cent. boys, 30 per cent. girls. Of course it is not chance. We see much in nature that cannot be attributed to chance. It is not chance that the weasel in California stays brown the whole year round while in Canada it becomes white in the winter. That's nature working to protect itself."

RED CROSS EMBLEMS

RESTRICTIONS PLACED UPON USE OF RED CROSS PINS AND EMBLEMS

I am advised by Mr. Eliot Wadsworth, vice chairman of the central committee, to call the attention of all chapters in the Pacific division to the following paragraph in the Act of Congress prohibiting the manufacture of Red Cross emblems, pins, buttons, or other insignia by other than agencies duly authorized by National Headquarters, to-wit:

"It shall be unlawful for any person, corporation or association other than the American National Red Cross and its duly authorized employees and agents and the army and navy sanitary authorities of the United States for the purpose of trade or as an advertisement to induce the sale of any article whatsoever or for any business or charitable purpose to use within the territory of the United States of America and its exterior possessions the emblem of the Greek Red Cross on a white ground or any sign or insignia made or colored in imitation thereof, or of the words 'Red Cross' or any combination of these words."

It has been brought to our attention that many manufacturers and many retailers are handling our Red Cross insignia. It will therefore be the duty of all chapters at this time to give this matter as wide a publicity as possible. In case retailers decline to recognize your patriotic appeal, please notify this office immediately, and the matter will be placed in the proper hands.

Kindly notify, at once, all your branches and auxiliaries.

Very truly yours,
JOHN L. CLYMER,
Director Pacific Division.

THE HYDRANT QUESTION

Manufacturers of tape must be kept busy in the world making the red tape that is so commonly used everywhere. Glendale has several bolts of the goods unraveled at the dozen or more hydrants in the business section of the city.

These hydrants are in a state of quarantine, and must not be closer to any stationary vehicle than 20 feet. The object of the enforcement of this rule is evidently for the purpose of leaving an unobstructed space close to the hydrants in case of fire near the hydrant when it would become necessary to connect the hose to the hydrant in question. The very few fires that occur in the business section of the city do not warrant throwing out of use for parking purposes 40 feet of the street space in the proximity of every hydrant. The enforcement of such an ordinance may be all right in crowded cities but in a little country city it is merely a question of red tape. Should a fire alarm be given autos parked near a hydrant could be gotten out of the way before the fire company could reach the scene of the trouble.

A few of these hydrants are located in front of business houses and one in front of the postoffice. Why not have arrangements made that so much valuable parking space on the business streets will not be thrown out of use?

PELLEY IS ALL RIGHT

W. E. Pelley, proprietor of Pelley's Confectionary on Brand Boulevard, near the Palace Grand Theatre, did an exceedingly kind act Friday when he sent to the Chamber of Commerce room where the exemption board, five physicians, and several clerks were at work, and where about 60 noble young men were waiting to be examined, a freezer full of fruit punch. Everybody said Pelley is all right and he is all right.

NOTICE TO DRAFTED MEN

All proofs of exemption claims filed at the time of the examination in Glendale, Friday, should be sent at once to the office of the Exemption Board at San Fernando, California. Do not wait to present these to the board in Glendale next Friday and Saturday.

MATTISON B. JONES,
Secretary of the Board.

LAST BAND CONCERT

MUNICIPAL BAND GIVES CLOSING CONCERT AT USUAL PLACE THIS EVENING

This evening at the corner of Broadway and Louise street in Glendale, occurs the last band concert of the season given by the Glendale Municipal band under the auspices of the city. The first of the twelve weekly concerts was held Thursday evening, May 24, and there has been a concert held every week since that time. Early in the season the time of holding the concert was changed from Thursday to Saturday evening. All of the concerts have been largely attended, and the music has been exceptionally good, especially was this true of the first eight concerts. A lack of financial encouragement caused some players to drop out.

The closing concert will undoubtedly be the banner one of the season. Prof. Hicks and members of the band who feel interested in giving Glendale the name of having a municipal band of distinction, have been untiring in their efforts to keep up a strong band organization. If any of the readers of the Evening News has a suggestion to make as to how money may be raised in Glendale to finance a first class band, the columns of the paper are open for such suggestions.

It is very true that there are a sufficient number of people in Glendale who would be willing to contribute to the support of a band that it would make it possible for this community to maintain a good band the year round, but the difficulty is to learn who these people are and make it possible for them to work together.

Will some one make a start, set the ball rolling and others will follow in making clear statements as to what may be done toward supporting a community band?

BENEFIT OF HOME GUARDS

The card party given Friday afternoon at the armory in the Logan building, Casa Verdugo, for the benefit of the Home Guards was a success far beyond the expectations of those having the matter in charge, and the interest manifested was very gratifying.

The attendance was good and the afternoon was greatly enjoyed by those present. The hostesses were: Mrs. G. K. Barnes, Mrs. Everitt K. Barnes, Mrs. J. Walter Elliott, and Mrs. A. F. Priest. Refreshments of cake and punch were served during the afternoon. Mrs. Thornton and Mrs. Wyman were the winners of the first and second prizes, miniature flag poles with American flags. Mrs. Kimberly was the winner of the consolation prize, also a tiny flag and flag pole. The proceeds from the party and donations were between $25 and $30.

DONER-BOWEN

The marriage of Harry A. Doner to Miss Edna E. Bowen of San Diego, came as a surprise to their friends in Glendale. The wedding took place at San Diego during the vacation of Mr. Doner, who is credit man of the Los Angeles Examiner and the happy couple motored to Glendale in a new Buick Six, the gift of the bride's parents, and surprised the groom's parents, Mr. and Mrs. J. B. Doner, of 309 S. Orange street.

The bride is a daughter of E. A. Bowen, a retired merchant of San Diego. Mr. and Mrs. Doner have purchased the Cooper residence at 1017 Melrose avenue, Glendale, and will be at home to their friends in a few days.

BELIEVES IN ORIGINALITY

The management of the Evening News is a believer in originality in country newspaper work. He always prides himself that it is possible for him to make up his paper without copying local news matter from other community papers. If you have interesting news articles that have not been published in other local newspapers we will be pleased to give them space providing of course, there is nothing objectionable about their contents. This same rule holds true in the case of the use of electros and cuts. It is not oddness on our part that we take this position, but it is a desire to have originality in the make up of the Evening News. This characteristic or originality has been produced by the publisher of the Evening News ever since he entered the newspaper work 24 years ago, and that same characteristic will remain with him so long as he is engaged in the newspaper business.

HELP FOR THE BOYS IN THE CAMP

If you want to help win the war, you can do it by helping the government keep up the morale—as well as the morals—of the boys in the camps and cantonments scattered all over the country. You can help in furnishing them with reading material.

Give the boys good books in good condition, and write in each volume your name and address, so that each soldier who reads it will know he has a friend in this town.

Give the latest and best of your magazines and periodicals. It will cheer up the fellow who reads them in camp to know there is somebody back here who is thinking of his needs.

Send books and magazines to the Glendale Library.

LA CRESCENTA

As the weather has been so pleasant in the mountains for the last three weeks, the following guests have been at Fairmount Hotel:

Miss Pearl McCumber, Omaha, Neb.; Mrs. W. F. Holden, La Canada; Mrs. J. J. Rutland, Mrs. M. Loftutse, Mrs. C. Carroll, Los Angeles; Mrs. S. Saddler, Hanson Heights; J. Q. Driggers, J. R. Proper, Los Angeles; Mr. and Mrs. T. H. Anderson, Montrose; Miss Bessie Meek, Riverside; Mrs. Dumming, Miss Josephine Lynch, Mrs. A. M. Leskler, Miss Alice E. Penney, Mrs. W. R. Patterson, Mrs. J. F. Patterson, Mrs. H. E. Penney, Mrs. H. J. Gormley, Miss Harriett Gormley, Mr. Oliver H. Guttridge, Mrs. E. B. Hood, Miss Ruth B. Hood, Los Angeles; H. R. Seckler, Santa Monica; Oscar Seckler, Joe Moore, Mrs. G. M. La Place, Los Angeles; Mrs. Louisa S. Janvier, Mrs. Emily A. Brown, Pasadena; Miss Florence M. Anderson, Denver, Colorado.

Dr. and Mrs. D. B. Scott of La Canada, are spending their vacation at the Fairmount Hotel.

Miss Margaret Rottschaefer, who returned recently from Aries Madras Presidency, India, where she has spent seven years as a missionary, has been at the Fairmont Hotel for the past six weeks. She left this week for her home in Michigan.

Dr. Katharine Scott, also from India, where she has been a medical missionary, is spending some time at the Fairmont.

Next Tuesday William Fox Company presents William Farnum in the Fires of Conscience. This is a story of a strong man's test of honor, written by Christian Warnack. Geo. Baxter, sheriff of the mining town of Ajo, is in love with Nell Blythe, a girl of the town. She realizes that some shadow is keeping the big man from telling her the truth, and she begs him to go back east and face it out. Encouraged by her faith in him, Baxter returns to his home. In the years before, Baxter had been married. He had killed a man whom he had found with his wife, and the wife, in remorse, had committed suicide. It was then that George Baxter had fled to Ajo. When he returns to his home he is tried by Judge Sneed, father of the man he killed. But the judge instructs the jury that the crime was justified under the "unwritten law," and asks for acquittal. Free to go back to the west, Baxter immediately seeks out Nell Blythe, and asks her to be his wife. At first she refuses, but after his faith in her has been tested by many dangerous adventures, she yields to him—and "they are married and live happy ever after."

Mrs. Bissel and Mrs. Miller of the Red Cross took over to the Pasadena branch this week dozens of bandages, wipes, rest pillows and some pajamas. We have plenty of material for more workers and can use money donations for material and other supplies. The classes meet every Tuesday and Thursday at the school house from 10:30 to 4:30 and a cordial invitation is extended to one and all to come out and help. It may be for your boy. It may be for your neighbor's boy. But in any case it is for someone's boy.

Mr. E. N. Nettleton, who is in the middle west, reports heat and more heat. He longs for the cool nights of La Crescenta and will be only too glad to return as quickly as business permits.

The Sunday school classes of Mrs. Brown and Miss Miller gave an ice cream social at the church Friday night. All the profits are to be sent to Harry Brown who is a missionary in India.

Mr. Fred Hangar, of the Fairmount Htoel reports an overflowing house and lots of reservations for this month and next.

Mrs. H. L. Scherb is entertaining her sister, Mrs. Frances Hughes.

The Jones cottage on Los Angeles is rented. This leaves but one vacant house in Crescenta. Verily the climate, etc., is an asset to be counted on the credit side of ledger.

Mr. and Mrs. Chas. Evans are leaving for San Francisco in a few days. Their stay will be a long one this time. Mr. Evans is connected with the telephone company.

Little Mary Cloud, daughter of Dr. Cloud, is reported ill with pleurisy.

Mrs. Lewenstein was up at her home place on Monday looking after her Kelsey plums. They are almost ready to pick and she has a fine crop.

Mrs. Chas. Green spent Thursday afternoon with Mrs. T. O. Potts.

Mrs. Van Henklyn is enjoying a visit from her grandsons.

Mrs. T. O. Potts reports seeing a buck, two does and a fawn on the Baldridge place last week. When a small truck drove up they leisurely walked away through the vineyards and disappeared.

Our La Crescenta boys that were drawn in the draft were called for examination Friday.

The boys of the younger set including Robert Potts, Lawrence Potter, Archie Potter, Horace Schieltz, Louis Steel and Maxwell Hoogerziel, all under 10 years of age, wearying of monotony of life in general, decided to walk to Brookside Park and go swimming. After wandering through Linda Vista and Flintridge they reached Devil's Gate bridge and decided it was too late to go farther. They returned via La Canada, where Mr. Clarence Chambers picked them up and returned them to Crescenta, tired, cross, footsore and hungry. What the several mothers did is not for publication. But they will not go again.

The Camp Fire Girls went to Mrs. Bissell's for a swimming party Wednesday.

PERILS OF PIONEERS

An Alaska settler was telling how crowded a certain ship was during the gold rush. He said that one day a man came up to the captain and announced: "You will have to get me some place to sleep."

"What's the matter with where you've been sleeping?"

"Well," explained the passenger, "I've been sleeping on a sick man, but he's getting better now and he won't stand for it."—Selected.

THEM WAS THE DAYS

The question is asked as to what has become of the young man who once or twice a year used to blow out $1.50 in hiring a livery team to take his best girl to ride? Well, he now has a grownup family, and his oldest boy is studying the spring catalogue of fifty horse-power automobiles to be used in similar amatory purposes.—The Owensboro, Ky., Inquirer.

Miss Margaret Boucher won the first prize and Miss Esther Schremp the consolation prize, in one of the contests, while Miss Catherine Phillips won the first prize in a contest for giving the best dinner menu for 10 cents. Her very clever answer was, "A chicken dinner, ten cents worth of chicken feed." Miss Carrie Stone was the winner of the consolation prize.

The guests enjoyed a lovely luncheon seated at a table laid with a beautiful cluny lace center-piece on which rested a silver bowl filled with glowing yellow marigolds.

Each guest received as a souvenir a silver bud vase with a single flower of the prevailing flower.

Those who gathered to say farewell to Miss Renshaw and Miss Marjory Imler who accompanies her to Berkeley, were Miss Catherine Phillips, Miss Waunita Emery, Miss Esther Schremp, Miss Margaret Boucher, Miss Carrie Stone, Miss Evangeline Hunchberger, and Miss Ernestine Lyon.

Five Per Cent.

Many people do not realize that the investment part of a policy, that is, the money which a mutual life insurance company does not use for death losses and actual expense, returns about 5 per cent. interest to the insured.

Our company is virtually as safe as the government itself and is earning an average of 5 per cent. on its invested funds. When you consider that government bonds pay an average of 2½ per cent. and cannot be compounded, this rate of 5 per cent. compound interest for a period of years, with no loss, no commissions, no taxes, no waste of any kind, will beat nine-tenths of all the investments on earth!

Our protection is most valuable, but combined with the investment, the proposition is incomparable. Ask any man of experience.

LIBRARIES AND THE WAR

An interesting reaction of the war is shown in our public libraries. Very radical is the change felt there in the demand for serious reading. Naturally European history, travel, geography and historic romance are replacing the popular demand for the breath catching novel. Books on military subjects come first, with a waiting list. Naval engineering is peculiarly popular. Most significant is the call by factory hands for books pertaining to their own trades. They now study the records of European treatment, so that they may be better equipped to meet the expected changes toward American made products. Wide-awake librarians encourage this movement by obtaining and displaying adequate books to meet this enlightened demand.—Harper's Weekly.

An Irishman was sitting in the general waiting room at a railway station when a woman came in and, sitting down beside him, remarked:

"Sir, if you were a gentleman you would not smoke here."

"Mum," he said, "if you was a lady ye'd go to the ladies' waiting room."

"If I please to sit here I'll do it," the lady retorted angrily.

"All right, mum," said the Irishman quietly. "If it pleases ye to sit wid me I'll put up wid ye!"

"If you were my husband I'd give you poison!" cried the woman.

"If you was me wife I'd take it!"

JAPANESE RAISE PRICE

The Tropico-Glendale Japanese Day Work association from this date will charge $2.40 per day of 8 hours and $1.25 for half day, or 35 cents per hour for shorter time. This raise has been made necessary on account of the increase in price of food products. 278t24*

THE FIREPLACE

The center of hospitality in the home is that point about which the family itself gathers most often. This point is in most homes the fireplace; hence its location and construction are of vast importance in building a home.

The fireplace, if there is only one, should be in the living room, for there the family and friends can enjoy it most. It should be located in the center of a wall space, either on one side or at one end of the room. Select the space which will permit the greatest number of people to sit around it.

In the construction of the fireplace you must not forget that its chief purpose is for a fire. The more simple the lines of construction the better taste is displayed and the more room the open fire receives.

There is a great variety of material suitable for a fireplace, and your individuality and taste can be well expressed in this important factor of the home. Brick, tile, wood many tile substitutes may be used. These offer great possibilities both for good color and design and lend themselves to any style of architecture.—Farm and Fireside.

EUROPE IS STARVING FOR GASOLINE

France, one of our largest automobile and truck buyers, has prohibited the importation of foreign motor vehicles, except for government account simply because of the difficulty of obtaining gasoline. Gasoline is now selling in France at about a dollar a gallon. Each automobile owner is allotted a small amount per week. India and Holland have likewise prohibited the importation of motor vehicles for the same reason. Denmark's gasoline situation was so acute that it stopped the driving of passenger cars through the streets. It is said that taxicabs in Berlin have been running on alcohol for two years now.—Popular Science.

GOOD HEALTH

Good health is the natural heritage of every individual. The wise person will not be sick, for he persistently heeds the laws of Nature. Nature intends the human machinery to run smoothly, without jolt or friction; and when, either from accident or ignorance, this delicate mechanism lacks harmony, then pain, ill-health and consequent unhappiness result. Compensation is the law of life, and once this law be abused, the human body pays a high toll for the infringement. Why not get the health habit?

HENRY HAD IT RIGHT

He had been telling of his engagement to a belle of the town but not one took his announcement seriously. One day he gave out that he had broken his engagement.

"Dear, dear," said one of his hearers. "Tell us why so cruel."

"Well, it's like this," said Henry. "Hattie told me she wouldn't marry me, and I ain't going to be engaged to any girl that won't marry me."

SUNLAND

Mrs. Phillips and daughter and Mrs. Chris. Beckmeyer of Los Angeles, are guests at the Spencer home on Summit avenue.

Mr. Waters and family, who have been visiting at the home of Mrs. Waters' mother, Mrs. Alfred Adams, Sr., left Friday for their home in the northern part of the state.

Mrs. Lou Johnson, of Redlands, came up this week to look after her interests in Sunland.

Mrs. Harriett Hall and children returned from a month's outing at Venice and is at home at the Tavern.

The county is having two more furnaces put in the Monte Vista Park for the use of the public. From the crowds that rested under the beautiful oaks last Sunday and enjoyed picnic dinners, it looks as if the extra furnaces were needed. Mr. Wm. Hoflinger is doing the work.

Quite a bunch of the young people of Sunland are working in the driers and cannery at Lankershim cutting and pealing peaches.

Mr. John Johnson of Piru is visiting his son, Phillip and family this week.

Mrs. Fred Frisbee spent Monday in Los Angeles.

Mrs. Dr. Nellie Barker Bates was sight seeing in Pasadena Tuesday.

Mr. Orsen Early received a telegram to join his company at San Francisco. He left Tuesday evening for the above place. Mrs. Early will follow in a few weeks.

Eustace Rowley and Percy DeWalla left Sunday evening for Vallejo to join their company after a short visit with their parents and friends.

There has been quite a little complaint about people camping in the Public Park, pitching their tents and staying for days. This is the first summer people have taken this liberty and it seems no one in Sunland has the authority to ask them to find other camping grounds. This matter should be looked into, as it spoils the freedom of enjoying the park with campers stationed all through it.

Rev. Alfred Adams is not improving from his recent illness as fast as his friends would like to see him. Last Saturday evening he suffered another slight stroke which impaired his speech for a time.

Quite an excitement in the valley when it was reported that oil had been struck in the hills at Hansen Heights. As to the extent of the flow it has not been learned.

Mrs. S. Garner and children are spending the week at the beach. Mr. Garner does not enjoy bachelor life.

Mrs. L. J. Freeman is at Hermosa Beach this week.

Mr. Lancaster just finished marketing his early free stone peaches. He sold them in Pasadena.

Mrs. Dr. Unger and daughters, of Los Angeles, are at the Monte Vista Tavern for a few weeks. Miss Unger is just out of the hospital and thinks there is nothing like the mountain air in Sunland to gain strength.

The Red Cross members assisted by the ladies from Tujunga, will do Red Cross work in the park Friday.

Mr. and Mrs. Jess Laird of Sawtelle, were Sunday guests at the home of Alfred Adams, Jr.

Sunland, Cal., Aug. 4, 1917

Dear Mrs. Huse:

Will you please convey to the Ladies' Aid and Improvement Clubs and accept yourself my sincere thanks for the kindly thought and feeling tendered me on the occasion of the recent Benefit Concert given for me in the park? I take this opportunity also of expressing my thanks for the generous support given me by all my pupils and other friends in the musical work of the valley. We are in need of more young people to take up instruments for the band and orchestra, on account of losing a goodly number through enlisting in the army and navy and for other reasons.

But, although our number is rather small, I am glad to report great progress in music, and in a few months we will have an organization which you will all be proud of.

I am sincerely yours,
R. WALTER MAYGROVE.

SUPPLY AND DEMAND

The mother of a family that has just moved to a small Oklahoma town was being sympathized with by a visitor because of the distance of the house from the creek which furnished the water for household purposes.

"It must be quite a tax upon your strength to carry water for the Saturday night bath for your large family," the visitor suggested.

"Oh, no, I don't mind," was the cheerful reply. "Besides, I gave 'em all a good wash before we left Texas."

A.—"The man who runs that store has the right idea."

C.—"How so?"

A.—"He advertises, 'Bagpipes and musical instruments.'"

SPEAKING OF CONAN DOYLE

An Englishman, serving his country as attache to the British Embassy at Washington, says that Sir Arthur has more than once been sought out by persons desirous of consulting him about thefts.

To one such woman, Harper's Weekly reports that Sir Arthur good naturedly said, "My detective powers are quite at your service."

"Frequent and mysterious thefts," said the woman, "have been occurring at my house for a long time. There disappeared last week a motor horn, a broom, a box of golf balls, a left riding boot, a dictionary, and a half dozen tin plates."

"The case is perfectly clear," said Sir Arthur, "you keep a goat."

A NICE DAY ALWAYS HELPS

The weather is still the prevailing topic in New England. They are telling a story of a farmer store keeper of Glastonbury to whom a customer remarked, a few days ago: "Isn't it terrible about the war?"

"What war?" asked the storekeeper.

"Why, they are having a terrible war over in Europe."

"That so? Who's fighting?"

"Why the Germans are fighting with the English and the French and the Russians."

"You don't say!—Wal, they got a nice day for't hin't they?"—Exchange.

"Madame," shouted the angry neighbor, "your little Cosmo has just thrown a brick through our window!" "And would you bring me the brick?" beamed Cosmo's mother. "We are keeping all the little mementos of his youthful pranks."

A clever old lady, who went into society in the days when conversation was more important than cooking, asked a niece on her return from a recent function, if it had been enjoyable. "Very," replied the niece. "The menu was great!" "My dear," said the old lady severely, "it isn't the menu that makes a good dinner: it is the menu sit next to."—American Cookery.
